Four Days More of JUNE SALES

To Ogden Physicians

Mrs. McFarland, of our Corset Department, has returned from Chicago after taking a thorough course in scientific corset fitting. The course consisted mainly of instruction in medical fittings. Every physician has special cases which require expert knowledge in the proper fitting of a proper corset. That Mrs. McFarland is now prepared to give proper attention to such cases is evidenced by the fact that she has been granted the degree of G. C. (Graduate Corsetiere) from the Gossard School, which is probably the foremost school of its kind in the world.

Women who have never been expertly fitted with corsets will be surprised to find that their figures can be greatly improved when a corset is properly selected and fitted to their peculiar needs.

Mrs. McFarland will give special attention to maternity cases, demonstrating the great comfort, ease and improved appearance which is possible when one knows just how the figure should be corseted.

Physicians who refer patients to this department may rest assured that the greatest care will be given to every case. No extra charge is made for this service.
